Discussion Points

And the questions are:

1. How can requirements be communicated more effectively?
2. What are the opportunities for harmonisation of requirements?
3. How do we get access to input from end users?
4. What are your headaches?
5. What are your unsatisfied needs and opportunities?

Discussion Points

We will collate all information and present on some of the key themes discussed when we all get back to the room.

Then we will aim to tidy up and circulate to all post event

Let's Keep the discussions going!
